Four Mothers Water **Bringers of the Rain**

This essence brings the love of the 4 Mothers of the Mayan tradition. These powerful Serpent Goddesses bring the rain from each Cardinal Point and govern the balance of water within the Universe. This remedy nurtures you through change, assisting you with the strength and courage to face the challenges that lie ahead. The Mothers bring you their unwavering love and support at this time. The Mayans teach that transformation is to come through the Waters of the South.

The Four Fathers **Guardians of the Earth**

This essence holds the original prayer for humans, sung to us by the 4 Fathers of the Mayan tradition. The Fathers are known as the "Four Balams", Mayan Gods who guard the Earth from each of the 4 Cardinal Points. The remedy brings to you their tender prayer of "Sustained peace for your soul, tranquility for your heart and a blessing of great fortune at the centre of your Being. May this be true for you every day that the sun rises and shines in the sky."
